# TOTAL BEDLAM VALUE PERFORMANCE

## HOOK MONSTER

Be forewarned: the ANARCHY is here. Columbia 300's Total Bedlam is the total opposite of the Bedlam, more aggressive with more total hook. A new coverstock, a new finish, and a new core make the Total Bedlam the Bedlam's perfect complement. The asymmetrical Bedlam Version 2.0 core will drive this ball to hook earlier, while the Full Tilt 6.0 coverstock that has been sanded with 500 and then 4000 grit Abralon® gives it enough traction to stay on the oiliest lanes for a dramatic move into the pocket.
